EXPERIENCE

IT Solutions Developer

Jun. 2023 – Present

Circosphere | San Francisco, CA (Remote)

- Develop cloud-based automations, such as a Gmail add-on, by collaborating with managers across departments to identify and address inefficiencies, boosting workflow efficiency by 25%
- Build and test API middlewares with JS and Node to, for example, integrate an event management app with Google Calendar, optimizing scheduling for a \$650k/year entertainment business
- Architect and deploy an integrated custom inventory and scheduling web app using Python and PostgreSQL, utilizing a conflict detection algorithm to identify equipment scheduling conflicts and provide real-time warnings to streamline equipment tracking and packing for a large circus warehouse
- Ensure the success of critical applications by monitoring performance, troubleshooting errors, and implementing solutions to maintain seamless operations and improve functionality
- Conduct cybersecurity audits and create training materials to educate employees on best practices and company policies

Web Developer

Jan. 2023 – Present

Freelance | Remote

- Design and develop high-quality websites with HTML, CSS, JS, and React using UI/UX, SEO, and accessibility best practices, such as mobile-first design and semantic HTML, driving visibility, growth, and compliance for small businesses
- Collaborate with clients through consultations and follow-ups to gather requirements and refine specifications, ensuring the final product meets business goals, conduct user testing to deliver tailored, high-performing, user-friendly websites

Lead Organizer

Jan. 2020 – Oct. 2021

Casa La Banda | México City, MX

- Co-led an initiative during the pandemic to provide housing and support for 100+ migrants and refugees, managing operations, fundraising, and financials while coordinating with donors, volunteers, and clients across cultural and language barriers

Disability Student Aide

Sep. 2017 – Aug. 2019

University of Montana | Missoula, MT

- Helped run a proctoring facility for 100s of students with disabilities and served as a direct aide, supporting students in achieving their educational goals by adapting to their diverse needs
